

The Planning Commission continued work on the City's Comprehensive Land Use Plan at its meeting on March 26. They reviewed revised goals, objectives, and initiatives in key geographic areas, which include the Downtown community, the Rappahannock River and other natural open space, Commercial Road Corridors, Neighborhoods, and Suburban Business Districts. The Planning Commission made clear that the draft Comprehensive Plan will remain a working document through October 2014. At that point, it will be ready for the Commission to review in its final form and forward to City Council. The newly revised section of the Comp Plan - [Key Areas](#) is available for public comment and a public hearing for this portion of the revised Plan will be held on April 9, 2014.
